- Pinpoint centering you can trust! Permanent, accurate pin holes for both axes of all ellipses make positioning over center-lines easy. You can mark the centers of the ellipse drawn.
- Mathematically correct, symmetrical ellipses are smooth, exact, die-cut.
- For accurate positioning, templates are made from .020" optical quality sheet plastic. No glare. No distortion. Minimum shadow.

No. T-93 ELLIPSE SERIES, 2 3/4" through 4" major axes.

Each template has six full ellipse cut-outs, 2 3/4", 3", 3 1/4", and 4", with exact pin-point centering on both axes.
